RUTGERS, THE STATE UNIVERSITY OF NEW JERSEY

A Virtual Celebration

May 31

254TH ANNIVERSARY
COMMENCEMENT
Dear Graduates,

Congratulations! After all your hard work through the many challenges you have faced, you are receiving a Rutgers degree. You have exhibited curiosity, tenacity, initiative, collaboration, compassion, creativity, and—especially in these past months of remote learning—patience and resilience. Now we celebrate your achievement and applaud you all, with thanks to those who have helped you get here: your family and friends, your faculty mentors, and your fellow students.

As we look forward to a time when we can gather again in person, we want you to know right now just how proud we are and how ready we know you are to go out into the world. Your time in our community of scholars has prepared you for a lifetime of engagement. While we have not given you all the answers, Rutgers has, we hope, strengthened your critical thinking, stoked your passion for lifelong learning, and inspired you to lend your talents to help solve critical issues both local and global.

In receiving your degrees, you enter a family of more than 500,000 proud Rutgers alumni—a community that can also be a vital network. We hope you will always remain proud of and involved with your alma mater, and you can be sure that Rutgers will continue striving to build a university of ever-greater distinction and impact.

As you, our Class of 2020, go forth from Rutgers, you go with our admiration for your resilience, our pride in all your achievements, and our fondest wishes for successful lives and careers.

Sincerely,

Robert Barchi
President
Rutgers, The State University of New Jersey
Dear Class of 2020,

Congratulations on your graduation from Rutgers University. While this commencement celebration is not as we hoped, do not let it diminish your sense of accomplishment or pride in your achievements. Your hard work, commitment, and passion—particularly during these uncertain times—have served you well, and I encourage you to draw on your experiences as you continue your journey and make positive contributions to the world and your community.

As a proud alum myself, I know firsthand the lasting impact Rutgers can make on your life. On behalf of our faculty and staff, we cherish the time we have spent with you and hope you will remain engaged with us for years to come. In the meantime, I wish you all the best in your future endeavors.

Sincerely,

Christopher J. Molloy
Chancellor, Rutgers University–New Brunswick

---

Dear Graduates,

In this unprecedented time for our society, the efforts of health professionals, scientists, and researchers have never been more important. As new graduates, you will leave Rutgers and enter a world needing your expertise, care, and commitment as we recover from the COVID-19 pandemic. While we may all be looking forward, I want to commend you for your hard work and perseverance, which have made today possible. Together with your faculty mentors, student colleagues, friends, and families, I applaud your numerous achievements.

Whether you choose to further your education or enter the workforce, remember what you have learned here and continue to contribute to, innovate for, and advance the health and well-being of communities locally and around the world.

Best wishes for continued success in your lives and careers.

Sincerely,

Brian L. Strom
Chancellor, Rutgers Biomedical and Health Sciences and Executive Vice President for Health Affairs
WELCOME

“WHAT IF?”
Narrated by Ms. Jhanvi Virani, Class of 2020, President, Rutgers University Student Assembly
(2019–2020)
“Alma Mater” and “Light of a Clear Blue Morning” performed by Ms. Maya Mitterhoff, Class of 2020,
and the Rutgers University Kirkpatrick Choir under the direction of Dr. Patrick G. Gardner,
Director of Choral Activities

BOARD OF GOVERNORS’ WELCOME
Mr. Mark A. Angelson
Chair of the Board of Governors

CELEBRATING A PRESIDENT
A Tribute to President Robert Barchi

PRESIDENT’S Greeting
Dr. Robert Barchi
President, Rutgers University

HONORARY DEGREE RECIPIENTS
Mr. Sandy J. Stewart
Scientist, entrepreneur, and philanthropist
Former chair of the Board of Governors and Board of Trustees
Mr. Lester Holt
Journalist and news anchor, NBC Nightly News with Lester Holt and Dateline NBC

COMMENCEMENT ADDRESS
Mr. Lester Holt
Journalist and news anchor, NBC Nightly News with Lester Holt and Dateline NBC

PRESENTATION OF CANDIDATES AND CONFERRING OF DEGREES
Dr. Robert Barchi
President, Rutgers University
Dr. Christopher J. Molloy
Chancellor, Rutgers University–New Brunswick
Dr. Brian L. Strom
Chancellor, Rutgers Biomedical and Health Sciences and Executive Vice President for Health Affairs
Capping a distinguished career in medicine, research, and higher education leadership, Robert Barchi has amassed a remarkable record of accomplishment as the 20th president of Rutgers, The State University of New Jersey. Appointed in 2012 after eight years as president of Thomas Jefferson University and over three decades as professor, neuroscientist, and ultimately chief academic officer at the University of Pennsylvania, Barchi has led Rutgers through one of the most significant periods of growth in its 254-year history.

He guided the formation of Rutgers Biomedical and Health Sciences (RBHS), a major division established through the 2012 restructuring legislation that brought into Rutgers most units of the former University of Medicine and Dentistry of New Jersey. He also played a pivotal role in the affiliation agreement between RBHS and RWJBarnabas Health to jointly operate New Jersey’s largest and most comprehensive academic health system.

Barchi has overseen a construction surge across Rutgers, including the transformation of the College Avenue campus, new residence halls and alumni spaces, and state-of-the-art facilities for life sciences, nursing, engineering, chemistry, nutrition, the performing arts, and athletics.

He helped usher Rutgers–New Brunswick into the Big Ten, a group of leading research institutions known equally for world-class academics and for nationally ranked athletics programs.

Barchi launched the New Brunswick Honors College, funded initiatives to ensure Rutgers’ continued strength in the humanities and increase faculty diversity, led the overhaul of Rutgers’ administrative systems, and championed efforts to improve the student experience while increasing access and affordability. Since he took office, undergraduate applications have increased dramatically, and overall enrollment has risen by 22 percent.

Through the generosity of Rutgers alumni and friends, Barchi successfully completed the university’s first billion-dollar capital campaign. Since he arrived, annual giving to the university has more than doubled and Rutgers’ endowment has jumped from 102nd largest in the nation to 71st.

Barchi holds B.S. and M.S. degrees from Georgetown University, and Ph.D. and M.D. degrees from the University of Pennsylvania. An NIH-funded researcher in the fields of neuroscience and neurology, he was elected to the National Academy of Medicine in recognition of his pioneering research on the structure and function of voltage-gated ion channels in nerve and muscle, and on the role these critical molecules can play in human disease. He is a fellow of the American Association for the Advancement of Science, the American Neurological Association, and the American Academy of Neurology and was elected to the American Society for Clinical Investigation.

At Penn, Barchi was the David Mahoney Professor of Neurological Sciences and director of the Rhoads Institute of Neurological Sciences for 13 years. He founded the Department of Neuroscience at the Perelman School of Medicine and later led the Department of Neurology. He was provost of Penn from 1999 to 2004. As president of Thomas Jefferson University, he oversaw establishment of its College of Pharmacy and College of Population Health and doubled the level of annual fundraising.

In saluting Barchi, Rutgers also applauds the dedication and contributions of his wife, Franci Harper Barchi, both as a tenured faculty member in the Edward J. Bloustein School of Planning and Public Policy and as a partner in presidential activities throughout the past eight years.

ROBERT BARCHI

Doctor of Humane Letters

Rutgers is proud to bestow upon Lester Holt an honorary doctorate of humane letters. Holt is an award-winning journalist and anchor of NBC Nightly News with Lester Holt, the network’s flagship broadcast, and Dateline NBC. Holt also leads NBC News’ special reports, breaking news, and prime-time political coverage.

Recently coined the “most trusted television news personality in America” (Hollywood Reporter/Morning Consult poll), Holt was named NBC Nightly News anchor in 2015 after eight years as anchor of NBC Nightly News weekend editions and 12 years as co-anchor of Weekend Today. In addition, Holt has served as principal anchor of Dateline NBC since 2011.

Holt has spent the past four decades in journalism and has reported and anchored from breaking news events across the globe, including from inside Tehran, Iran, during a critical moment in the world last year and from the Korean Peninsula on the growing tensions between the United States and North Korea just before the 2018 Winter Olympics. Most recently, Holt has led NBC News’ coverage of the coronavirus, anchoring weekly prime time specials featuring critical, real-time information on the pandemic. He also launched Nightly News Kids Edition, a digital newscast aimed to inform and educate children during these difficult times.

One of Holt’s trademarks is his on-the-ground reporting and his deep commitment to providing viewers with first-person accounts when disaster and tragedy strike. Recently, he covered the massive Southern California wildfires and also reported on mass shootings from El Paso, Texas and Dayton, Ohio.

Holt was selected to moderate the first presidential debate of 2016, which was the most watched debate in American history. In 2017, Holt also sat down with President Trump to conduct one of the most consequential interviews of his presidency, after Trump told Holt the firing of former FBI head James Comey was tied to the Russia investigation. He traveled with President Obama on his final trip aboard Air Force One for an in-depth interview the same year.

Holt was recently a co-moderator for the first Democratic debate in the 2020 election cycle, which was also the most watched Democratic debate ever.

Holt has distinguished himself as the leading broadcast journalist on criminal justice reform. In 2019, he led a groundbreaking series Justice for All across all NBC News platforms. Holt spent three days embedded inside Louisiana State Penitentiary, the largest maximum-security prison in America, and moderated the first-ever televised town hall from a maximum-security prison at Sing Sing. The series put a bright spotlight on the many complex issues around mass incarceration.

Before becoming co-anchor of Weekend Today in 2003, Holt anchored Lester Holt Live on MSNBC and served as a primary anchor for MSNBC’s coverage of major news events. Holt has been recognized with numerous honors, including multiple Emmy Awards and a Robert F. Kennedy Journalism Award. In 2019, he was honored with the prestigious Walter Cronkite Award for Excellence in Journalism. Two years prior in 2017, he was honored with Quinnipiac University’s Fred Friendly First Amendment Award. In 2016, Holt received several notable designations: he was featured on Time’s 100 Most Influential People list and The Hollywood Reporter’s Most Powerful People in New York list and was named “Journalist of the Year” by the National Association of Black Journalists.

LESTER HOLT

254th Anniversary Commencement
Sandy J. Stewart
Doctor of Humane Letters

Rutgers is proud to bestow upon Sandy J. Stewart an honorary doctorate of humane letters. Stewart is a highly respected biotech industry entrepreneur and scientist. Until he recently retired, Stewart spent nearly 12 years working for Ciba-Geigy/Novartis Biotechnology Center in Research Park, North Carolina, as head of their Immunology Group. During that time his group developed assays for a number of products, various diagnostics, invented a novel on-site diagnostic, and was part of the team that brought the first insect-resistant corn plant to the market. Mostly following his tenure at Novartis, he co-founded several biotechnology companies including Immunovation, Paradigm Genetics, Precision, and most recently Paradigm Botanicals. These companies spanned functional genomics, proteomics, and immunology into drug development and diagnostics. In 2010, he joined Metabolon, founded by one of his co-founders at Paradigm Genetics, to advance technology that he developed in 1998. Metabolon is considered the world leader in Metabolomics today. He was one of the first in the world to greatly advance the technology of biochemical profiling allowing ultrahigh throughput analysis, which subsequently created a new field of science called Metabolomics. He is well published, holds numerous patents, and sits on various scientific advisory boards.

During his career, Stewart has also worked for the American Red Cross and had the privilege of working with the United Nations on human immunodeficiency virus (HIV) and Prionics AG on bovine spongiform encephalopathy (BSE).

Among his many awards and honors are the Ciba AgriNova International Award and President’s Council Award, the 1998 Center for Entrepreneurial Development Start-Up of the Year, and 2000 runner-up to Ernst and Young’s Entrepreneur of the Year.

Stewart is the former chair of the Rutgers Board of Trustees, to which he was first appointed in 2005. Stewart has served on most Board of Trustees and Board of Governors committees over the years, including the Board of Trustees Joint Investments Committee, the Governance Improvement Task Force, the Rutgers–Camden Alumni Association Board, and the Rutgers Camden Board of Directors.

Stewart was inducted onto the Rutgers Board of Governors in July 2015. When he was inducted onto the Board of Governors, Rutgers President Robert Barchi praised Stewart, saying, “We are delighted that Mr. Stewart will continue his distinguished service at Rutgers as a member of the Board of Governors. We especially look forward to capitalizing on his expertise in the field of biotechnology, which is a vital contributor to the health of the state’s economy.”

In June 2016, he was elected vice chair of the Rutgers Board of Governors. In 2017 and 2018, he was elected chair of the Board of Governors. A Trustee Governor, Stewart’s term runs through 2021.

Originally from Point Pleasant, New Jersey, and Chincoteague, Virginia, Stewart lives in New Hill, North Carolina, where he is working on his latest biotech company in Research Triangle Park.

Jhanvi Virani
Bachelor of Arts
Mathematics, School of Arts and Sciences
Bachelor of Science
Computer Science, School of Arts and Sciences
President, Rutgers University Student Assembly (2019–2020)

Rutgers is delighted to have Jhanvi Virani represent the Class of 2020. Virani is graduating with a bachelor of arts in mathematics and a bachelor of science in computer science, as well as a minor in history. When Virani was a child, she and her family emigrated from India; they have lived in New Jersey for almost 20 years. Virani began her journey at Rutgers with a passion for building projects that served social issues. As a research assistant at the School of Communication and Information, she worked in collaboration with the United Nations to help build a data analytics tool to track correlation between armed conflict and economic stability in regions around the world. Her extracurricular involvement as Rutgers Entrepreneurial Society president, Rutgers Entrepreneurship Coalition member, and Rutgers University–New Brunswick Honors College Innovation Lab fellow focused on fostering student innovation.

As an advocate for increased student government accessibility for university student organizations, minority groups, and individuals, Virani served in the Rutgers University Student Assembly (RUSA) as Busch campus chair from 2017–2018 and student affairs chair from 2018–2019. When she was elected as 2019–2020 RUSA president, Virani became the first South Asian student and the second woman of color to hold the position. As such, she was proud to lead one of the most diverse student assemblies in university history and strongly believes that increased diversity in student government fosters a more inclusive, impactful student voice.

During her presidency, Virani promoted initiatives that made Rutgers more accessible, inclusive, and welcoming for all students, regardless of factors like racial identity or economic standing. In fall 2019, RUSA gave students the opportunity to donate their guest meal swipes to the Rutgers Food Pantry. Not only did this project benefit the recipients, it also raised awareness of student food insecurity at the university. To help students with their educational finances, Virani and her administration worked to develop an income share agreement model in which student debt could be paid off in a finite period with no interest accumulation. RUSA also advocated for the increased use of open source and free textbooks so students would pay less for textbooks. Another initiative was the fight for additional inclusive and empowering spaces for minority groups on campus.

Following graduation, Virani will start her professional career as a trading engineer at Goldman Sachs in New York City. She plans to remain active in the Rutgers community as an engaged alumna, and she is excited to see how Rutgers students will use their voices to shape the landscape of the university.
Conferring of Degrees

President Robert Barchi

Rutgers Biomedical and Health Sciences
Chancellor and Executive Vice President for Health Affairs Brian L. Strom

Ernest Mario School of Pharmacy
Dean Joseph A. Barone
Doctor of Pharmacy

New Jersey Medical School
Dean Robert L. Johnson

The university seal is the official imprimatur of Rutgers, The State University of New Jersey. As such, it appears on official documents, such as contracts and deeds, and, most notably, on the diplomas issued to graduates of the university.

The outer ring contains the name of the university. The inner ring includes the date of Rutgers’ founding, 1766, as Queen’s College, the eighth institution of higher learning established in the American colonies. The university’s motto, “Sun of righteousness, shine upon the West also,” appears in Latin in the inner ring, surrounding a stylized sunburst. The motto is an adaptation of the motto of Utrecht University, in the Netherlands, connoting the original college’s early affiliation with the Dutch Reformed Church. It is today interpreted as a request for the enlightenment of learning to shine equally upon the New World.

The Rutgers shield was introduced in 2015 as part of the university’s 250th Anniversary. The shield’s elements convey our past and present. The shield is divided into thirds, representing Rutgers’ deep connections to New Jersey’s three regions—north, central, and south—and denoting the university’s tripartite mission—teaching, research, and service.

Five symbolic elements both acknowledge our past and signify that as we evolve, we will uphold core values that have been integral to our identity from our earliest days.

- The sunburst conveys illumination—light as metaphor for knowledge—and it is the motif of our seal and the heart of our motto, “Sun of righteousness, shine upon the West also.” Our centuries-old seal and motto are both variants on those of Utrecht University, in the Netherlands; its motto reads, “Sun of righteousness, enlighten us.”
- The crown represents our founding in 1766 as Queen’s College, named in honor of Queen Charlotte, wife of Great Britain’s King George III who reigned over the American colonies when our charter was signed.
- The university’s founding in 1766 confirms its standing as one of America’s nine original colonial colleges. A decade later, as the American Revolution erupted, the college gave itself over to the cause of freedom, as all “who were able to bear arms immediately marched to oppose the enemy.”
- The three stars represent the State of New Jersey, the third state to ratify the U.S. Constitution.
- The book is a timeless symbol of our enduring commitment to teaching, learning, academic inquiry, and scholarship.

The university mace, an ornamental staff symbolizing the authority of the president, is borne before the president in academic processions by the secretary of the university.

The design of the Rutgers mace incorporates signs of the institution’s traditions and status as New Jersey’s state university. The head of the mace bears the university’s coat of arms and its seal worked in colored enamel and gold on silver, all surmounted by a facsimile of the crown of Queen Charlotte, for whom the university was originally named “Queen’s.” The long shaft is made of stained wood and silver on which are engraved intertwining ivy leaves, symbolizing learning; red oak leaves, representing New Jersey’s state tree; and violets, the state flower.

The mace was a gift to the university from the Raritan Valley Chapter of the Society for the Advancement of Management and the New Brunswick-Raritan Valley Chamber of Commerce, in recognition of Rutgers’ bicentennial commemoration in 1966. The mace was designed by J. Russell Price, director of design for the Gorham Manufacturing Company, and crafted by the Gorham silversmithing department.
The wearing of academic dress dates back to the early days of the oldest universities in the world. In the American Council on Education's book entitled "American Universities and World," it is suggested that "Gowns may have been counted necessary for warmth in the unheated buildings frequented by medieval scholars. Hoods seem to have served to cover the tonsured head..."

Throughout the years, European universities have shown great diversity in their academic dress. American universities, on the other hand, when they decided to adopt academic dress, immediately established a code of regulations that today is followed by almost all American institutions. This code has made it possible to distinguish the bachelors, masters, and doctors and, at the same time, recognize the university that has given them the degree.

**Gowns:** The bachelor's gown has pointed sleeves and is worn closed. The master's gown, worn open or closed, has oblong sleeves, the front part of which is cut away at the elbow. The doctor's gown has bell-shaped sleeves. It is worn open or closed.

At Rutgers, members of the Board of Governors and Board of Trustees, as well as those who hold a doctoral degree from the university, wear the Rutgers gown, which is scarlet with black velvet front panels framed on the outer edge with gold cord braid. The velvet panels are embroidered with a crown and the year 1766 at the neck, signifying the university's founding immediately established a code of regulations that today is followed by almost all American institutions. This code has made it possible to distinguish the bachelors, masters, and doctors and, at the same time, recognize the university that has given them the degree.

**Hoods:** The hoods vary in size: 48 inches for the doctor's degree, 42 inches for the master's, and 36 inches for the bachelor's. All hoods are lined in silk in the academic color or colors of the institution conferring the degree. If the institution has more than one color, the colors are shown in divisions using chevrons.

Below is a list of some of the faculty colors as prescribed by the Intercollegiate Code for the binding of the hood:

- Agriculture / Marine: Library Service / Lemon
- Arts, Letters, Humanities / White: Medicine / Green
- Business Administration, Commerce / Dull White: Music / Pink
- City and Regional Planning / Brown: Naming / Apricot
- Communication and Information Studies / Gray: Oratory-Speech / Silver Gray
- Dentistry / Lilac: Pharmacy / Olive Green
- Economics / Copper: Philosophy / Blue
- Education / Light Blue: Physical Education / Sage Green
- Engineering / Orange: Public Administration / Peacock Blue
- Fine Arts, Architecture / Brown: Public Health / Salmon Pink
- Human Resources Management / Dusty Blue: Science / Golden Yellow
- Journalism / Dark Crimson: Social Service / Citron
- Labor and Employment Relations / Peach Blue: Theology and Divinity / Scarlet
- Law / Purple: The color on colors of the lining of the hood for the nine colonial colleges are: scarlet, Rutgers; crimson, Harvard; green-gold-silver, William and Mary; blue; Yale; red-blue, Pennsylvania; orange-black, Princeton; light blue-white, Columbia; brown, Brown; and green-white, Dartmouth.
- Cape: Black mantles or soft hats are worn for all degrees. The gold tassel signifies a doctoral degree.

Alma Mater

ON THE BANKS OF THE OLD RARITAN

From far and near we came to Rutgers,
And resolved to learn all that we can;
And so we settled down, in that noisy college town,
On the banks of the old Raritan.

Chorus:
On the banks of the old Raritan, my friends,
Where old Rutgers evermore shall stand;
For has she not stood since the time of the flood,
On the banks of the old Raritan.

Then sing aloud to alma mater,
And keep the Scarlet in the van,
For with her motto high, Rutgers’ name shall never die
On the banks of the old Raritan.

Chorus:
On the banks of the old Raritan, my friends,
Where old Rutgers evermore shall stand;
For has she not stood since the time of the flood,
On the banks of the old Raritan.
Welcome
TO THE RUTGERS UNIVERSITY ALUMNI ASSOCIATION

Congratulations! You are now one of more than 500,000 alumni worldwide—a global community that is scarlet forever. Your membership in the Rutgers University Alumni Association starts now, lasts a lifetime, and gives you access to:

- Career Resources and Networking Opportunities
- Alumni PERKSCARD™ Discounts
- Exclusive Events and Digital Experiences
- Volunteer Experiences
- Diverse Alumni Groups Across the U.S. and Abroad

Visit Ralumni.com/newgrads to learn more ways to stay Scarlet Forever™.
